Nymbol Technology Moves Corporate Headquarters to Buckhead

*Leading provider of correspondent banking and broker/dealer software
relocates to Tower Place 200 in Atlanta's Buckhead Financial District*

(ATLANTA – May 13, 2013) – Nymbol Technology today announced it has moved its corporate headquarters from 100 Riverwood Parkway in Cobb County to Tower Place 200 in Buckhead. The company develops integrated straight-through processing software for securities broker/dealers and financial institutions offering correspondent banking services.

“We’re very excited about locating our executive and administrative teams in the heart of Atlanta’s financial district,” said Tom Bryan, CEO of Nymbol Technology. “This location increases our local presence and positions us for continued growth, and provides direct access to other financial and transaction processing-related businesses.”

Nymbol’s product suite has resided on 20,000 desktops in more than 1,400 institutions and remains unmatched by competitors due to its superior design. The fully automated, web-based software delivers the highest level of customer service with the lowest operating and staffing costs.

Nymbol, which has an additional office in New York City, will continue to house its development team offsite and maintain software hosting services at certified, secured third-party sites that are supported with redundant power, Internet access and cooling capabilities. The company’s new headquarters is located at Tower Place 200, 3348 Peachtree Road NE, Suite 1030 in Atlanta.

About Nymbol Technology

Headquartered in Atlanta, Nymbol Technology develops and markets integrated straight-through processing software for securities brokers/dealers and financial institutions offering correspondent banking services. Each Nymbol product is licensed directly to customers or delivered as software as a service (SaaS) and can be implemented one module at a time. Nymbol’s web-based products are fully automated and deliver the highest level of customer service with the lowest operating and staffing costs. For more information, visit www.nymboltec.com.
